

Staysense Listing Description Tips

Having an updated listing description that details all the features of your property is one of the easiest ways to improve your listing. Guests want to know everything about the property so be sure to give them as much information as possible.

Property Details

For many guests, things like coffee makers, grills, and washers and dryers are necessities. Let visitors know of any special appliances or features that your property offers. Regarding the bedrooms, highlight the number of beds and bed sizes for each room. Additionally, be sure to share the number of parking spaces available and whether they are free or paid.

Amenities

Provide guests with a list of all the amenities that your accommodation offers. Things like pools, hot tubs, and game rooms are specific features visitors look for when searching for a place to stay. If you have accessibility features like ramps, elevators, or ADA-compliant showers, be sure to mention those as well.

What's Nearby

Convenience is a huge draw for visitors. If your property is near restaurants or attractions, let guests know. Give specifics like "4-minute walk from several restaurants" or "less than 1 mile from The Wharf". This allows guests to begin planning their activities and meals.
